PROJECTS

Personal Portfolio Website | LINK   **Sep 2023 – Dec 2023**

- Developed and designed a responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects, skills, and contact information.
- Implemented a enhanced online visibility and user engagement.

AI Powered E-Commerce Website | LINK   **Dec 2024 – Current**

- Currently developing a full-stack e-commerce application using the MERN stack, featuring AI-powered tools like a voice assistant for navigation and a chatbot for real-time customer support.
- Focused on creating a seamless, intelligent shopping experience with secure user authentication and responsive UI.

Personal AI Assistant | LINK   **April 2024 – July 2024**

- I used Google Gemini API.
- Same worked as Google Gemini but I have added more attractive UI.
